

Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

CHAPTER – VI

PROJECT DEVELOPMENT

6.1 – Pre-Requisites

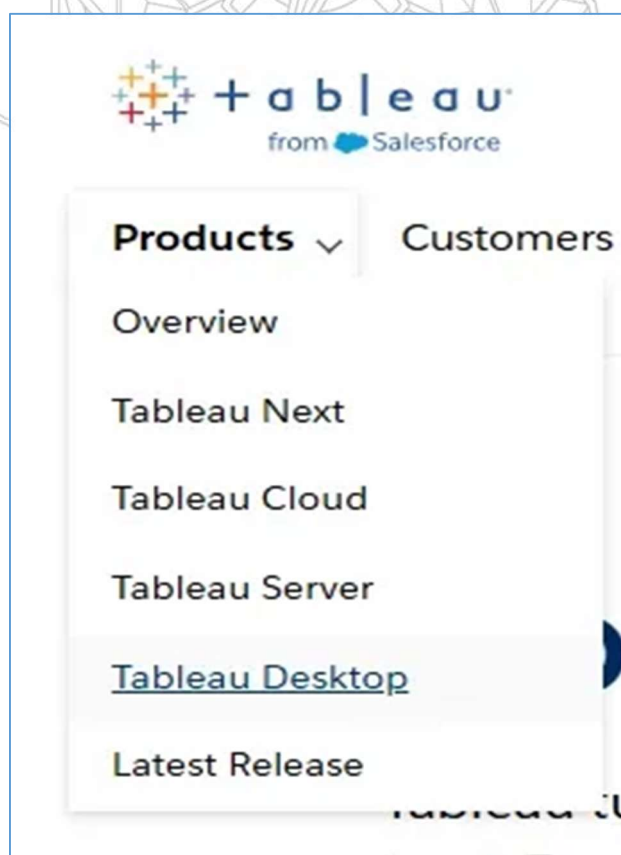

Tableau Installation Guide

Tableau is a data visualization tool that helps us convert raw data into simple charts, graphs, and dashboards. It makes it easier for businesses, students, and researchers to understand data and make better decisions.

Installation Steps

Step 1: Visit the Tableau Website and find products menu.

Open your web browser and go to the official Tableau website. Click on the **Products** menu to see the available Tableau products.

Step 2: Choose the Right Product

Tableau offers different products for different purposes:

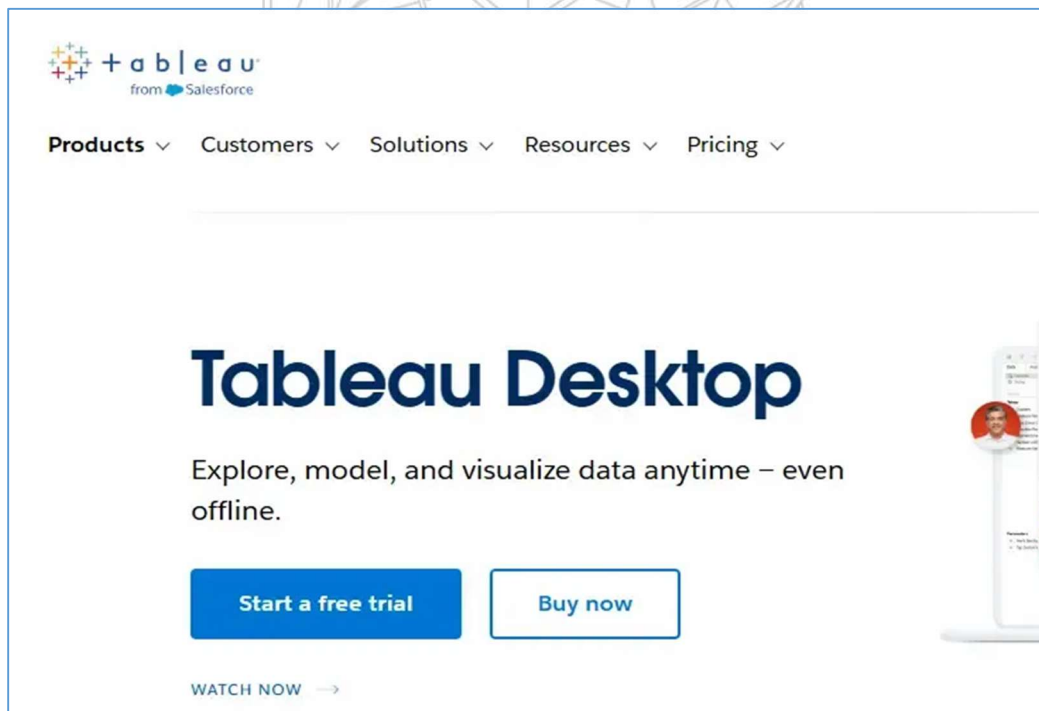

- **Tableau Cloud** – A cloud-based platform for creating and sharing dashboards online.
- **Tableau Server** – Used by organizations to host Tableau dashboards on their own servers.
- **Tableau Desktop** – The main software used to create charts, dashboards, and reports.
- **Tableau Next** – A modern platform with AI-powered analytics.
- **Other Products:**
 - **Tableau Prep** – Helps clean and prepare data.
 - **Tableau Public** – Used to create and publish visualizations for free.
 - **Tableau Mobile** – Lets you view dashboards on your mobile phone.

For this project, we will use **Tableau Desktop**.

Step 3: Download Tableau Desktop

Click on **Tableau Desktop**. You will see two options:

- **Start Free Trial** – Use Tableau for free for a limited time.
- **Buy Now** – Purchase the full version.

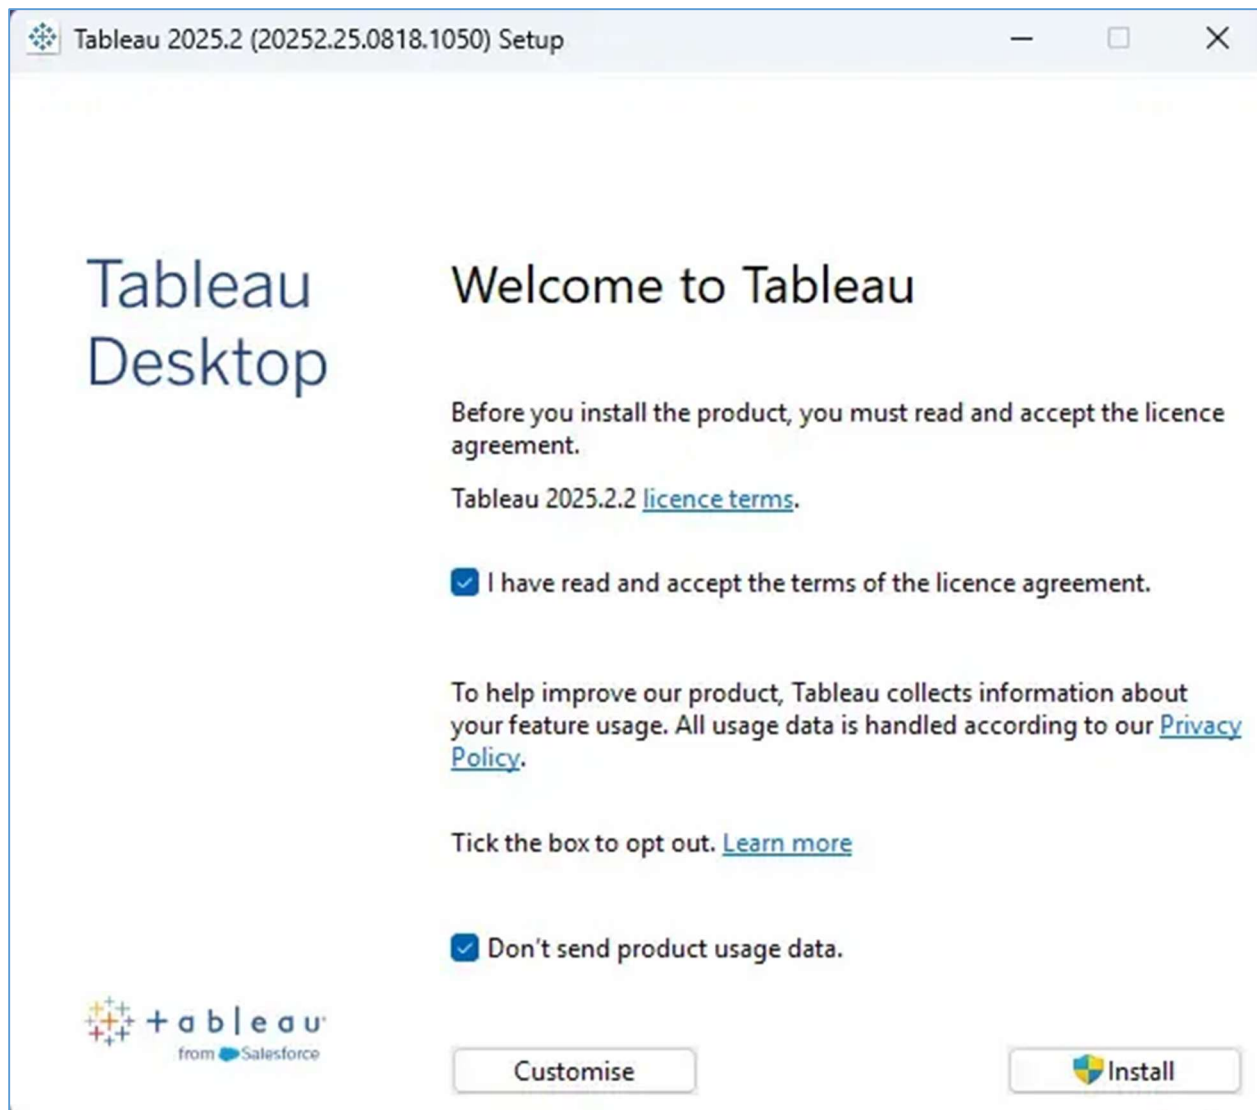

Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

Choose the option that best suits your needs.

Step 4: Install Tableau

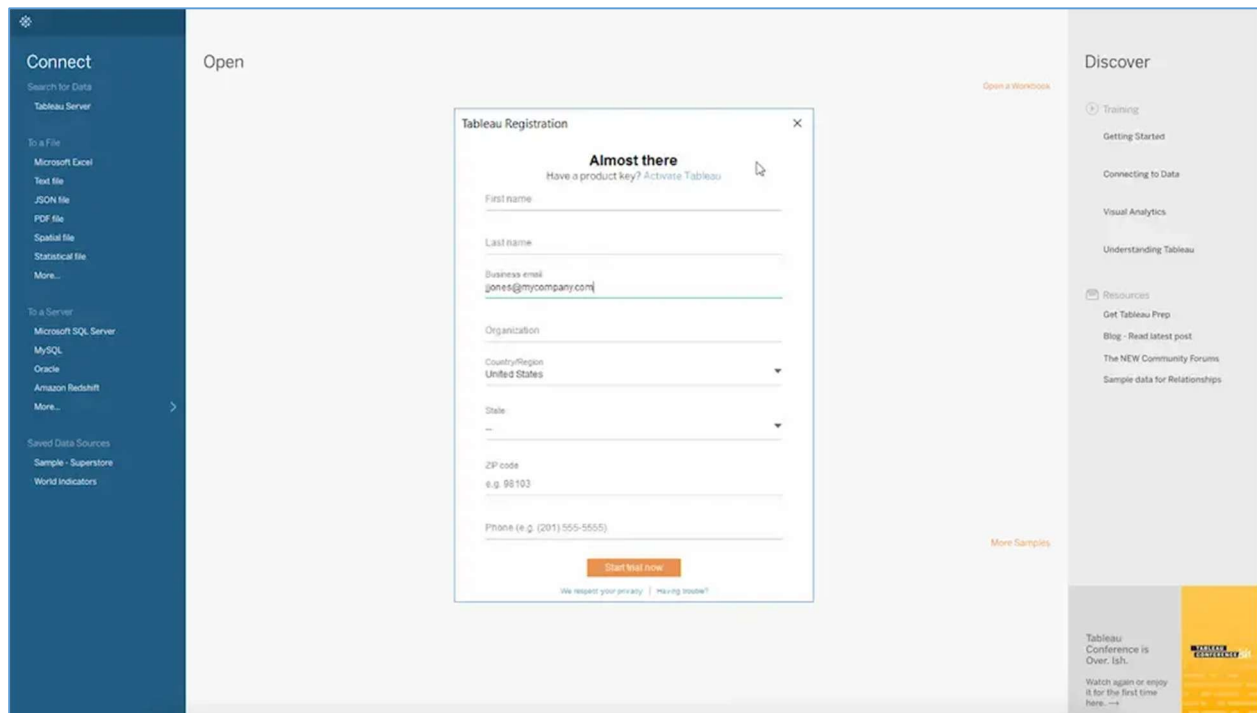

Once the download is complete, open the setup file. Follow the on-screen instructions to install Tableau Desktop on your computer.

Step 5: Complete the Setup

After the installation is finished, open **Tableau Desktop**. Sign in or register for a Tableau account if required.
