### 6.6 – publishing

#### Publishing the Project

After completing the dashboards and stories in Tableau, the project was published to **Tableau Public**. Publishing the project makes it accessible through a web browser, allowing users to explore interactive visualizations without installing Tableau Desktop.

The publishing process included the following steps:

- Finalized all dashboards and stories.
- Verified data accuracy and visual consistency.
- Saved the workbook in Tableau Desktop.
- Signed in to Tableau Public.
- Published the workbook to Tableau Public.
- Generated a public shareable link.
- Embedded the published dashboard into the project website using an HTML iframe.
- Tested the dashboard on different browsers and devices.
- Ensured smooth navigation and interactivity.
- Made the project available for presentation and public access.

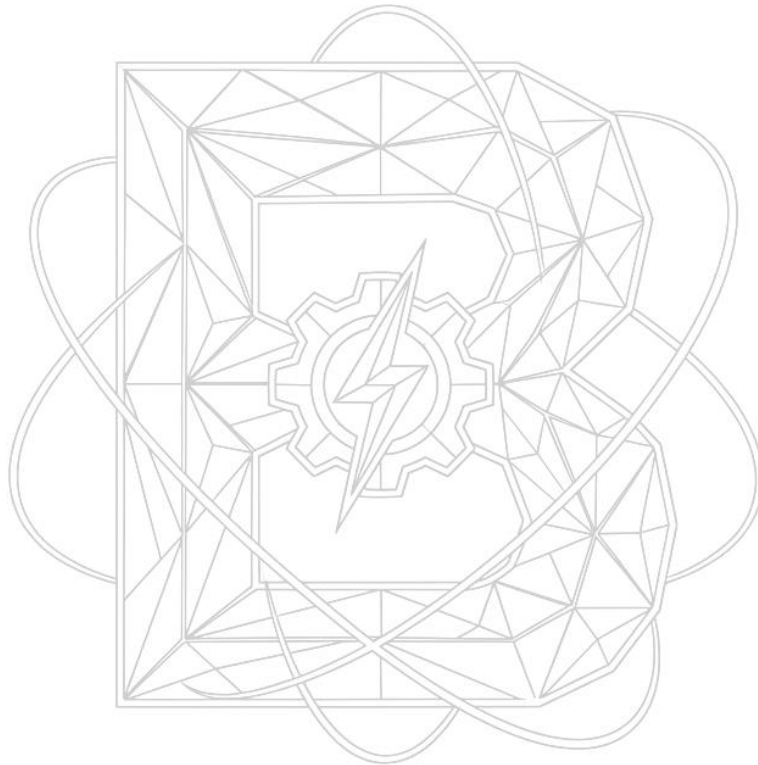

#### Benefits of Publishing

- Provides easy online access to the dashboard.
- Enables interactive data exploration.
- Allows users to filter and analyze housing market trends.
- Makes project sharing simple through a web link.
- Supports embedding in websites and portfolios.
- Helps demonstrate Tableau visualization skills.
- Encourages collaboration and feedback.
- No installation is required for end users.
- Accessible from desktops, laptops, tablets, and mobile devices.

## Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

---

- Serves as a professional showcase for academic and project presentations.
